

You have built your reputation so hard; don't spoil it by recommending a place that's just looking to make a buck!

Why would you want to ruin your reputation?

Many physical therapy places are in offices without adequate space or equipments. Healing Touch Physical Therapy is located on a 2000 square feet building with just physical therapy services and all the necessary and more equipments.

We welcome walk ins to check out our place at your convenience on any office working hours.

We have been serving the community since 1999. We are so proud of how good the facility looks, yet we are continually improving on it.

Don't tarnish your reputation by recommending a place that is not adequately equipped.

Why should you refer your patients to Healing Touch PT?

We understand your patients are someone you care about, look after, and want the best for them.

- ❖ **Feel confident about your recommendation to our clinic. We have all the equipments and more needed for a physical therapy clinic.**

❖ You will get a status report on your patient in a timely manner so you can know exactly how your patients are progressing and we understand the importance having timely paper work for NO-FAULT and WORKERS COMP. patients.

- ❖ **We are constantly improving the appearance for our patients.**
- ❖ **We will only treat extremities leaving neck and back for your expertise.**
- ❖ **We provide training for local therapists in highly skilled manual therapy.**
- ❖ **We have received Certificate of Excellence from American Red Cross.**

❖ We accept most insurance companies. If we take them in as a patient, they won't see a bill from us unless their insurance was terminated or if the insurance company sends them the check directly.

- ❖ **We provide complementary transportation to all our non-emergency, ambulatory patients that have difficulty getting here.**

- ❖ **Join a wellness program to prevent most non communicable diseases such as obesity, diabetes, high and low blood pressure, heart attack, and stroke. Helps to reduce stress, improve energy and increase bone density. Join as a group for social interaction.**

❖ Our wellness program is only \$10 per month with no initiation, termination or contract.

- ❖ **We are open 6 days a week. Morning, evening and week end hours are available. Due to increased demand we are now open 7am to 9pm Monday-Friday and every Saturday 9am to 5pm.**
- ❖ **Free one on one session with a brain tumor survivor regarding the importance of having a positive outlook.**

❖ Most importantly if we can help your patients, they will know it within two visits. If we are unable to help them we will gladly refer them to their primary care so they can get the help they need.

- ❖ **In 2 visits we should be able to identify and address the root cause of pain rather than just symptoms and make a positive change, so they can decide the effectiveness of the treatment.**

❖ If you want to be associated with a winner contact Healing Touch Physical Therapy. If you refer minimum of 10 patients per month we can even have delayed billing for 2 visits so your patients can be fully satisfied to come to Healing Touch P.T. We won't even bill their insurance if it is indicated for 2 visits.

❖ How we are sure if we can make a positive change in 2 visits?

- ❖ **We classify pain into 3 categories. Mechanical. Mechano-chemical. And chemical.**
- ❖ **Mechanical pain most likely to respond to physical therapy. A common example is back pain-certain movements would increase the pain and certain movements would decrease it.**
- ❖ **Mechano chemical- A common example is tennis elbow. A combination of anti inflammatory drugs and physical Therapy would work great in this case.**
- ❖ **Chemical Pain- A common example is any sinister pathologies. Our P.T would not be able to reproduce the pain and therefore would be sent back to the primary care for further testing.**

❖ We are sure to help your patients in 1 visit itself, but we added 1 more visit to be certain!!

- ❖ **Rest assured your patients are in good hands by our caring and knowledgeable therapists who are able to tell if they can help or not in relatively short period of time.**

❖ If you want to be associated with a physical therapy musculoskeletal expert refer your patients immediately.

❖ We have J safety gear to prevent falls while doing treadmill, single leg balance or ball exercises due to loss balance or drop in sugar levels. To see it in action, login to healingtouchpt.com

❖ P.S We have added more therapists and support staff to accommodate all your patients.

“It’s not just a business; we actually care about your patient’s well being.”

Director

Dr. J. Peruvinal. P.T, D.P.T.

We are so sure about making your patients pain free; we are prepared to guarantee it.
