- **JoAnn M. – May 2021**

After unsuccessfully going to other Physical Therapists, I found Healing Touch and Tushar Bhat PT, after just one month of therapy, I am happy to say I am pain free. Tushar is an excellent Therapist who took his time helping me. He taught me how to take care of myself in order to stay pain free. The staff is very friendly and always helpful. I would highly recommend Healing Touch to anyone who needs physical therapy

- **Jobby J. – May 2021**

I have been undergoing therapy at this facility for a week. As the name says, its truly a healing touch indeed. Especially with my primary therapist, Dr. Tushar. More than just providing theoretical strategies, he is hands on, very detail oriented and knowledgeable. For the past several years, I have been suffering from the same pain and by Lord and Savior Jesus' grace, Dr. Tushar was able to find out the cause of the issue.

I am very happy that I ended up at this facility. The whole team including the Therapist Assistants Ashish and Victor are all awesome.

- **Tolu O. - Oct 2021**

I went to Healing Touch PT with a very bad persisting left shoulder and neck pain.

The Services are excellent! The staff are very caring, friendly and attentive.

I was well taken care of especially by TUSHAR, he is very detailed, made me feel at ease & highly professional. At my discharge, my shoulder/neck pains were completely gone, I am now able to sleep well!

Thank you, guys, for a great 👍 job!!

- **M. Negretti – Dec 2020**

I found office staff are well as my therapist, Akriti Yadav. Extremely polite and gracious. Ms. Yadav was more informative and graciously answered all of my questions even if they probably were silly, also was a great therapist and I certainly improved greatly from when I started.

- **J. Connors – Sep 2020**

Very satisfied! I have gone to other physical therapy facilities and this one was by far the best. I was a bit apprehensive at first since I knew of no one who had been to this facility. My doctor recommended going here. When I have gone to other places, they take great care of you for the first couple of visits then almost ignore you figuring you know what exercises to do and they would supervise from a distance. Many places

would have multiple therapists working with you. Here I was assigned to Nisha who was excellent. Soft spoken with a soothing voice. Never did I have another person/therapist work with me. She was always asking, when giving me therapy exercises, if there was any pain. She did an excellent job when she performed the hands-on stretching exercises. Today was my last day and my back feels great and the exercises Nisha taught me I will continue to perform on my own. I believe my back will feel excellent if I keep up with the taught exercises. I highly recommend "Healing Touch Physical Therapy & Rehabilitation P.C."

- **Aaron P. Flushing, NY ~ Mar 26, 2019**

Nisha has been taking care of me and my wife for the last 7 years. While on vacation in Houston Texas I got strong pains in my lower back and upper part of my legs. The pain was so strong that I hardly could stand up. I called my physician in New York and he said: "I can't tell you anything without examination. My advice goes to the local ER". My wife then said call Nisha from Healing Touch maybe she can help. So, I called Nisha and she said: "there is nothing wrong with you" and she recommended a few exercises. I started doing the exercises but was impatient and went to the ER anyway. In the ER after a thorough examination they told me also that there is nothing wrong with me. So, I continued to do the exercises and after a few days the pain was gone and me and my wife could enjoy our vacation. Thank you-Nisha

- **Natalie O. ~ July 2016**

My Primary Care doctor referred me to Healing Touch Physical Therapy (HTPT), based on the good results she had observed in some of her other patients who had undergone physical therapy at this establishment. My initial complaint was excruciating pain in my neck, and left shoulder/ arm, which eventually progressed to numbness and tingling in my left hand.

Nisha, the physical therapist who has been working with me, has proven to be most exceptional. She is detailed; thorough in her evaluation, and analysis of the progress of my particular condition; knowledgeable (and I would have a very good idea, as I teach both undergraduate and graduate level courses in Pharmaceutical Sciences); professional; and possesses excellent bedside manner. I felt that she showed genuine care and concern for my well-being, and I believe that that has also assisted in my convalescence.

The rooms are equipped and well kept, and the staff is attentive, helpful, friendly, and pleasant. The fact that HTPT offers a courtesy ride, should personal transport be problematic, is a major plus; the drivers, as well, are very polite and kind.

If you are searching for a place which offers great care, I would encourage you to try Healing Touch Physical Therapy; it comes with my highest recommendation.

Healing Touch is the only facility that has paraffin (hot wax) treatment for painful ARTHRITIS in your hands. It's a wonderful treatment; I visited to other facilities in Queens/Nassau County, they don't own this machine. Sandra PT gives me a wonderful ultrasound with paraffin wax treatment, which greatly helps my arthritis pain go away. If you have had or just had stroke recently, after leaving the appointment with the therapist you feel less pain & much stronger, especially with their knowledge of proprioceptive neuromuscular facilitation (PNF) stretching for stroke patients.
